"Conquer the Rock"

Rock climbing is a relatively new activity for us and to Sri Lanka itself. However this situation means that there is great potential for enthusiastic climbers to become a part of new discovery missions, new climbing routes and exciting new adventures in beautiful locations island wide.

We already have some thrilling routes in place for experienced climbers including the 263m rock face of Sri Lanka's highest waterfall 'Bambarakanda' which is the most developed climbing location in Sri Lanka. Here you can admire the picturesque hilly countryside characterised by pine forest, as you experience the thrill of climbing next to these famous falls.

If you are a professional climber then Sri Lanka holds many opportunities awaiting your discovery... and ours; be a part of our discovery missions where we can work as a team and explore! This tour is available only to fit, healthy adults who have experience in rock climbing.

What to bring

- Personal effects for warm, windy and rainy conditions.
- Sun lotion, insect and leech repellents.
- Climbing/abseiling gloves and climbing shoes.

Tour Includes
